

Olivia Ma'Cor – Tech Rider

I sing live with pre-recorded backing tracks.

If there is **no sound technician** to start the tracks & adjust the sound, then I will play my tracks from my Samsung Smartphone (w/ headphone jack), and use my Shure Beta 58A microphone.

I will **need**:

- A stereo system, with either a
 - o Small stereo (headphone / *kleine Klinke*) or large stereo (guitar / *große Klinke*) jack **[preferred]**, or
 - o Bluetooth
- And a microphone (XLR) jack

I will **need to know** if you will provide the following, or if I need to provide the following:

- A headphone cable (*kleine Klinke*)
- A headphone – to – cinch cable (*kleine Klinke zu Cinch*)
- An adapter from headphone to guitar stereo jacks (*Adapter: kleine zu große Klinke*)
- A microphone (XLR) cable
- A way to record a video of my performance

If there **is a sound technician** to start the tracks & adjust the sound, then I can perform with the set-up described above, or I can provide the backing tracks via

- USB stick, or
- Sent ahead via email (directly attached or via Google Drive link)

For the **stage set-up**, I need either:

- 1 stool & 1 small table, or (*1 Hocker & 1 kleiner Tisch*)
- 2 stools (*2 Hocker*)

I will bring a **music stand** (*Notenständer*)

I do NOT need a mic stand (I hold the mic) (*Mikrostand*)

Location conditions – need:

- No Smoking (no exposure to any amount of any kind of smoke!)
- Minimal stairs
- A place to warm-up (can use the bathroom if necessary)
